REF: STATE 117289

1. ConGen contacted Bernhard Wagner, Managing Director of Prueftechnik Dieter Busch AG. Wagner confirmed that Prueftechnik had received all 10 Inertial Sensor Assemblies (ISA) listed on the license and assured us the ISAs had been incorporated into Prueftechnik's PARALIGN systems.

2. Prueftechnik provided ConGen a list identifying which specific ISA had been incorporated into which PARALIGN machine. Prueftechnik stated that the sets of gyros are firmly integrated into the PARALIGN systems and cannot be easily transferred from one machine to the other. Prueftechnik confirmed the sets of gyros incorporated into the PARALIGN systems would be used by Prueftechnik and its subsidiaries for demonstration purposes at trade shows.

3. Post found no indication that Prueftechnik is acting in a manner inconsistent with U.S. export controls, or was not forthcoming in its answers to our questions.

4. This report has been coordinated with Embassy Berlin.

5. Previous reporting from Munich is available on our SIPRNET website at www.state.sgov.gov/p/eur/munich/.
